

**INVESTMENT PROJECTS
REQUIRING ADDITIONAL FINANCING**

SETTING UP OF PUBLIC AND BUSINESS CENTER «KURSK-CITY»

PROJECT INITIATOR

Full Legal and Short Names of an Enterprise

ZAO «Lyubimy Kursk»

Kind of Activity

Development, building, management of real estate units, commercial activity.

PROJECT DESCRIPTION

Project Purpose

To redevelop the industrial territory 4 ha in area located in a historical central part of Kursk. The project provides for setting up of a large public and business center with high synergy due to combining of business processes and rendering of consumer services of high quality to population and guests of Kursk.

The complex consists of the following: a business center of B+ class 7,8 thousand m² in area; a hotel complex **** with 130 rooms, 3 conference-halls with different areas, apartments and meeting rooms, sports and recreation center with a swimming pool; an exhibition hall; shopping malls; fast-food restaurants and cafes.

Total area of buildings – 110 thousand m².

Resources Availability

Real estate units and land are owned by the enterprise. The complex is fully provided with communications and living facilities, power and gas facilities. The enterprise has internal funds for implementation of 30% of the project.

Project Total Cost

The project cost is 96,9 million euro

Including Required Investment

Private investors – 19,4 million euro

Credits of banks and/or investment funds – 48,5 million euro

Areas of Investment

Monetary funds will be used for civil and erection works according to estimate of cost agreed with an investor.

Form of Proposed Cooperation

1. Foundation of joint venture together with a general partner for implementation of a large-scale project;
2. Participation in share capital;
3. A long-term loan with a guaranteed rate of remuneration;
4. Design financing.

Project Implementation Period

The project is to be implemented in 4 stages. Project start date - June 01, 2012: redevelopment of the office building, foundation of a business center of B+class on its base. End of reconstruction — May/2013.

It is planned to finish «Kursk-City» project in 2017.

Project Efficiency

Net present value NPV will be 12,3 million euro at a discount rate of 8 %.

Project Implementation Stage

The first stage is preparatory and is coming to an end. The ownership of the objects and land was registered; all buildings and constructions were inspected and examined. A concept of the site development of Kursk historical center was elaborated.

Turn-by-turn reconstruction (construction) of buildings (a business centre, a hotel complex, sports and recreation center with a swimming pool, shopping malls, etc.) will be carried out during following stages.

REDEVELOPMENT OF INDUSTRIAL TERRITORY OF FORMER KURSK PLANT OF TRACTOR SPARE PARTS

PROJECT INITIATOR

Full Legal and Short Names of an Enterprise

ZAO «Lyubimy Kursk»

Kind of Activity

Development, building, management of real estate units, commercial activity.

PROJECT DESCRIPTION

Project Purpose

To redelop industrial territory 46 ha in area, which is 3,7 km far from the center of Kursk, locates on the main road of the city and has good public transport accessibility (bus, trolley-bus and tram routes are quite near the territory). The projects provides for building of a new residential community 300 thousand m² (31 ha) in area, 2 kindergartens, covered parkings for 2 500 places, sports and recreation center with adjoining public green spaces, 50-m swimming pool and covered tennis courts; and also creation of modern trade and entertainment center 35 thousand m² in area.

Resources Availability

Real estate units and land are owned by the enterprise. The complex is fully provided with communications and living facilities, power and gas facilities. The enterprise has internal funds for implementation of up to 20% of the project.

Project Total Cost

The project cost is 6,8 milliard rubles

Including Required Investment

Private investors — up to 70%

Credits of banks and/or investment funds – max.10%

Areas of Investment

Monetary funds will be used for construction and erection of apartment blocks and public-and-business facilities.

Form of Proposed Cooperation

1. Foundation of joint venture together with a general partner for implementation of a large-scale project;
2. Participation in share capital;
3. Design financing.

Project Implementation Period

It is planned to implement the project during 7 years. The project start date — September 01, 2012

Project Efficiency

Net present value NPV will be 0,6 milliard rubles at a discount rate of 12 %.

Project Implementation Stage

A concept of the site development was elaborated. Design works on a feasibility study of town planning are carried out, old constructions are demolished and a building site is cleared. Building of the first stage of a residential community is scheduled for the 4th quarter of 2012. Simultaneously building of a shopping and entertaining center with adjoining parking for 1200 places is carried out. Commissioning of the shopping and entertaining center is the 3d quarter of 2013.

RECONSTRUCTION OF AIRPORT COMPLEX «VOSTOCHNY» (KURSK)

PROJECT INITIATOR

Full Legal and Short Names of an Enterprise

Public Enterprise of Kursk region «Kurskairport»

KPKO «Kurskairport»

Kind of Activity

Airport and air-navigation activity of the enterprise on a state airfield Kursk (Vostochny).

PROJECT DESCRIPTION

Project Purpose

To develop an airport network, to ensure a conformity of air transportation with modern requirements. To increase the volume of air transportation and to improve the quality of service of aircrafts, passengers, luggage and freight, including international ones. To eliminate the risk of withdrawal of the airport from a national airport network because of its non-conformity with national requirements, the negative influence of infrastructure restrictions of the airport on the quality of air service, and to ensure a possibility of receiving of modern aircrafts.

Resources Availability: airport buildings and constructions, a runway, personnel

Project Total Cost

1 064 300 thousand rubles

Including Required Investment

230 900 thousand rubles

Areas of Investment

Design, building and capital repair

Form of Proposed Cooperation

Participating interest

ORGANIZATION OF SERIAL PRODUCTION OF INDUSTRIAL LEAD-ACID BATTERIES

PROJECT INITIATOR

Full Legal and Short Names of an Enterprise

OOO «IStochnik TOka Kursky»

OOO «ISTOK»

Kind of Activity

Production of electrochemical power sources

PROJECT DESCRIPTION

Project Purpose

The project provides for building of new facilities for production of a line of industrial batteries united into three main types:

- traction batteries – 600 thousand units per year;
- fixed batteries – 400 thousand units per year;
- battery packages – 500 thousand units per year.

Resources Availability:

Personnel, a production space, equipment.

Project Total Cost

4,9 milliard rubles

Including Required Investment

3,3 milliard rubles

Areas of Investment

Building of premises, creation of industrial infrastructure, purchase of equipment

Form of Proposed Cooperation

Credit. The enterprise offers preferable credit conditions:

rate of interest: 9%;

deferment of payment of credit: 3 years;

deferment/capitalization of payment of interests on credit: 3 years;

payment of credit: by regular monthly payments after termination of a grace period.

Project Implementation Period

5 years

Payback period

6 years

Project Efficiency

Net profit at rated capacity - 1,88 milliard rubles.

Project Implementation Stage

Preparatory works are done.
